INTRODUCTION

This document presents my portfolio website assignment, which includes all the required sections designed to showcase my skills and projects effectively.

The website features a clean, modern design with smooth animations and interactive elements. It is fully responsive and works well across different devices including mobile phones, tablets, and desktops.

Each section has been carefully crafted to provide a professional appearance while maintaining good user experience throughout the site.

The following pages contain code snippets and screenshots for all deliverables.

Responsive Design Testing:

- Desktop/Laptop
- iPad Mini
- Samsung Galaxy S8+

Name: Aditi Raghuvanshi

- **Code Snippets :**

ScreenShots Of the Same:

DeskTop View :

The screenshot shows a dark-themed website with an orange header bar. In the top left corner, there's a button labeled "Aditi" and another labeled "Raghuvanshi". The top right corner features a navigation menu with links: Home, About, Skills, Service, Portfolio, Contact, and a toggle switch for light/dark mode. A decorative purple flower graphic is positioned in the top right corner. Below the header, there's a large black banner area. On the left side of this banner, there's a portrait photo of a woman standing by a railing at night, with lights reflecting in the water behind her. To the right of the photo, the section title "About Me" is displayed in white. Underneath it, the subtitle "Full Stack Developer" is shown in a smaller font, followed by a short description of the developer's skills. A "Read Me" button is located below the description.

This screenshot shows a "My Skills" section on a dark-themed website. At the top, the section title "My Skills" is centered in white. Below it is a horizontal bar chart showing the proficiency levels of various programming languages and technologies. The chart includes: HTML / CSS (90%), JavaScript (70%), MERN (80%), C++ (85%), Java (70%), Data Structure And Algorithms (80%), and DBMS (95%). To the right of the chart are four circular progress indicators with percentages: "Team Work" (90%), "Creativity" (80%), "Communication" (95%), and "Problem Solving" (85%). The overall design uses a clean, modern aesthetic with orange and white text on a dark background.

Projects

The screenshot displays a portfolio website for a developer named Aditi Raghuvanshi. The top navigation bar includes links for Home, About, Skills, Service, Portfolio, and Contact, along with a dark mode toggle. Below the header, a section titled "Projects" shows six mobile application interfaces arranged in two rows of three. The top row includes a collage of various app screens, a weather and location control app, and a social media or entertainment app featuring a woman in sunglasses. The bottom row includes a productivity app with a cat icon, a task management app with a color-coded grid, and a messaging app with a cartoon character.

Aditi Portfolio

The screenshot displays a contact form integrated into a portfolio website. The form consists of four input fields: "Enter First Name", "Enter Last Name", "Enter Email", and "Enter Phone". Below these is a larger input field for "Enter Query". A prominent orange "Send Message" button is centered below the query field. At the bottom of the page, there is a footer with the text "Aditi Portfolio" and two circular icons: one for location and one for email.
